DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, drawn to sensing the motion of each hand in a simulated match-style game, classified in class 463, subclass 8.
- II. Claims 6-15, drawn to moving the viewpoint viewable to a user on a display based upon the detected head position, and other display techniques involving viewpoints classified in class 463, subclass 32.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because viewpoint of the camera is based upon the head position and the hit effect routines are based on the viewpoints. Further the specifics of the subcombination are not entirely incorporated and the effect of motion detection could also be achieved without the particulars of the subcombination, such as a motion sensor that is not mounted in a main unit and merely attached to a user. The subcombination has separate utility such as a virtual reality system wherein the location of the users hands are tracked.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Marks whose telephone number is (703)-305-7497. The examiner can normally be reached on Monday - Thursday (7:30AM - 5:30 PM).
